In the article, “Entrainment for distinguishing atypical atrioventricular node reentrant tachycardia from atrioventricular reentrant tachycardia over septal accessory pathways with long right ventricular tachycardia,” by Bennett et al, which appeared in the August issue of the journal (Circ Arrhythm Electrophysiol. 2011;4:506–509), 3 important errors were made.

The title should read, “Entrainment for distinguishing atypical atrioventricular node reentrant tachycardia from atrioventricular reentrant tachycardia over septal accessory pathways with long-RP tachycardia.”

The next to the last author’s name should be spelled Ellaina C. Hogg, BSc.

Also, on page 507, in the 1st paragraph of the Methods, the third line of text now reads: (3) differential ventricular entrainment during tachycardia showed a PPI-TCL that was greater at the RV base than at the RV apex.2–5 This should read: (3) differential ventricular entrainment during tachycardia showed a PPI-TCL that was greater at the RV apex than at the base.2–5
